

21 June 2021

s9(2)(a)

Thank you for your email of 25 May 2021 requesting the following information:

Please can you provide the number of Kāinga Ora – Homes and Communities homes that have been assessed as passing Healthy Homes Standards.

I have considered your request under the Official Information Act 1982.

I can advise you that as at 31 May 2021 a total of 11,345 Kāinga Ora homes have been assessed as meeting the Healthy Homes standards.

All Kāinga Ora homes are required to meet the Healthy Homes Standards by July 2023. I am advised that many homes, particularly those that are newly-built, are estimated at this point to need only minimal interventions in order to bring them to standard, but are not captured in the above figure as they have not yet been officially assessed against the standards.

I trust this information is helpful.

Yours sincerely

Rachel Kelly
Manager Government Relations
